

## PRODUCT

# Stainless Steel Trolley

## TECHNICAL DATASHEET

### DESCRIPTION

The Stainless Steel Cleanroom Trolley uses high-quality 304-grade stainless steel to deliver both durability and easy maintenance. It includes two shelves, each supporting up to 40 kg, making it ideal for transporting equipment in environments that demand hygiene and sturdiness. The trolley measures 895 x 595 x 950mm in overall, and each shelf is 800 x 500mm. A 590mm gap between the shelves provides ample space for a variety of items.

Four swivel castors—two with brakes—allow for smooth maneuverability and secure positioning. The non-marking, thermoplastic rubber wheels prevent scuff marks on floors, and the bright zinc-plated (BZP) frame adds durability and resists corrosion.

Designed for user convenience, the trolley includes an elevated perimeter flange and a deposit surface set approximately 25mm below the flange for easy cleaning. The shelves feature 35mm beveled edges with a flat safety return on the inside and a sound-absorbing lining. Four shock-resistant disc bumpers sit above the castors to protect against damage. The corrosion-resistant, maintenance-free castors feature solid, impact-proof plastic bodies and high-grade slide bearings to ensure smooth operation. For an additional cost, users can opt for a configuration with two fixed and two swivel castors for added versatility.

### FEATURES

- Two shelves
- 304 grade stainless steel
- 40kg payload per shelf
- 590mm gap between shelves
- 4 swivel castors, two braked
- Non-marking wheel
- BZP frame

Number of shelves	2
Shelf dimensions in mm	800 x 500
Load per unit area / shelf	40kg
Chassis	4 swivel castors, 2 of them with brake, Ø 125 mm
Total load capacity	80kg
Net weight	11kg
External dimensions in mm (W x D x H)	895 x 595 x 950
